2.0. SCOPE
This instruction notes the bases of usage of suitable dimensions System Documentation logo.

3.0. RESPONSIBLES
Client certified by QACS for management system certification.

4.0   References:- QA-P-SYS-07, QA-OP-08

5.0   Definition:- Logo (Mark of identification of accredited body)

6.0. Procedure

6.1.   The certified clients are entitled to use the logo/certification mark of QACS with accreditation mark on its documents to show status of certification.

6.2. Combined Logo/certification mark can be used only for the activities/ advertisement as per the scope of certification. This combined mark can be used on flyers, brochures, website advertisements, other physical advertising material, business cards and company letterhead.

6.3.   If client certificate is not valid, suspended or withdrawn or if scope is amended, the client shall remove all logo/certification marks from all advertisement/ website/ stationery or modify to exclude any services which are not part of scope of certification.

6.4.   Combined System Certification Logos/Certification mark;

- Only Combine logo/mark should be used, only accreditation mark/logo can not be used.
- Certification mark cannot be used on a product or product packaging or in any other way that may be interpreted as denoting product conformity or on the outer pack which is using for carrying product
- Can be used on any advertisement material with the expression "management system has been certified as per (name of standard)"
- The certification mark or logo cannot be used on the laboratory analysis, calibration or inspection report or certificate as they are deemed to be product/services.

6.4.1 The Certified client may use statement on product packaging not on product in the following manner ("The (Name of client) is certified for (Name of standard) by QACS by certificate number (Certificate no.)." but this exception is not allowed for FSMS-ISO 22000 certification.

6.5   System Certification symbols can be used at defined form and dimensions on the website. Furthermore, if the proportions stand firm, dimensions can be reduced or expanded. If it is necessary, the changes, which are about the type, shape, dimensions or proportions of reducing and expanding of System Certification Logos, are announced to related people by Management Board.

6.6   In case client is found to breach any of these condition his certificate shall be suspended and will be restored only after confirmation through special audit.
